Engineer and Computer Science student. Theoretical foundation and practical skills that go hand in hand

Cloud Engineer, DevOps, Programmer and much more. I am determined to develop my skills in the IT industry. I aspire to gain more work experience among new technologies and have a lot of fun along the journey!

Experience

W-ITC Sp. z o.o. Wrocław, Poland

Application Lifecycle Management Consultant, May 2024 – Jul 2024

- Consulting and maintenance of ALM software for aerospace, automotive and pharmaceutical companies
- Designing system architecture for clients looking to implement Codebeamer
- Managing in-house training on cloud infrastructure

NOKIA Solutions and Networks Sp. z o.o. Wrocław, Poland

Software Automation and Testing Specialist, Oct 2021 – Apr 2024

- Create software test plans and collaborate in creation of cloud architecture for customers
- Streamlining the onboarding process for +100 people
- Maintain pipelines, automatic tests and documentation

Professional Skills

Technical Expertise

- Proficient in **cloud computing** platforms, including AWS (Lambda, EC2, CloudFormation), Google Cloud Platform (Kubernetes Engine, IAM), and Microsoft Azure
- Experienced with **Docker** for **containerization**, including creating and optimizing Dockerfiles to build efficient images
- Skilled in system **administration** on **Linux** (Redhat and Debian), managing servers (Apache, Nginx), and securing systems through firewalls and load balancing
- Strong understanding of **relational databases**, with hands-on experience in MySQL and PostgreSQL
- Practical knowledge of Python (data processing and analysis with Pandas, NumPy) and C#

Problem Solving

- Hands-on experience troubleshooting and resolving software and infrastructure issues, including cloud-based environments
- Successfully manage Linux server configurations, optimizing system performance and security
- Known for an analytical approach to solving complex technical issues in both individual and team-based projects

Teamwork and Communication

- Proven ability to collaborate in dynamic teams across cloud and DevOps environments
- Fluent in **English (C2)** and **Polish (C2)**, with basic German proficiency (A2)
- Experience in leading and participating in cross-functional teams, ensuring smooth communication and task management

Education

Engineering degree program: Cloud Architecture, Oct 2022 –Present (Feb 2026)

University Merito, Wrocław Poland
